It is up to us to remind the world that human life has value for what it is and not for what it has. That the lives of the unborn, the elderly, migrants and men and women, whatever the colour of their skin or their nationality, are always sacred and count as much as the lives of everyone else! It is up to us to have the courage to lift up our eyes and look at the stars, the stars that our father Abraham saw, the stars of the promise.
